

Guidelines for installation of curtain walls

- 1 Preface 1

- 2 General and special requirements 5**
 - 2.1 Introduction 5
 - 2.2 Demarcation between windows, doors and curtain walls 5
 - 2.3 Scope of application 9
 - 2.4 Construction types 12
 - 2.4.1 Mullion and transom façade 12
 - 2.4.2 Element facade 13
 - 2.4.3 Bonded glass constructions 14
 - 2.4.4 Warm facade (not ventilated) 15
 - 2.4.5 Cold façade (ventilated) 15
 - 2.4.6 Cold-hot façade 16
 - 2.4.7 Double skin façade (double skin façade) 17
 - 2.4.8 Glass roof constructions, conservatories, integrated sloping glazing 18
 - 2.5 Frame materials / combinations 20
 - 2.6 Actions on curtain walls in the building envelope 21
 - 2.7 Plane model 23
 - 2.8 Special requirements 26
 - 2.8.1 Earthquake 26
 - 2.8.2 Potential equalization 27
 - 2.9 Special features in old buildings 28

- 3 Planning tasks 31**
 - 3.1 Detailed design 31
 - 3.1.1 Building connection interface 31
 - 3.1.2 Minimum planning requirements 33
 - 3.1.3 Example of ground connection and sleeper formation 41
 - 3.2 Workshop and assembly planning by the contractor 45
 - 3.2.1 Basic principles 45
 - 3.2.2 Connection examples 49

- 4 Building physics requirements 51**
 - 4.1 Required technical regulations 51
 - 4.2 Thermal insulation and moisture protection 52
 - 4.2.1 Basic principles 52
 - 4.2.2 Requirements of the Energy Saving Ordinance (EnEV) and DIN 4108 "Thermal insulation and energy saving in buildings" 53
 - 4.2.3 Summer thermal insulation 77
 - 4.3 Sound insulation 78
 - 4.3.1 Requirements 78
 - 4.3.2 Connection details 82
 - 4.3.3 Planning the sound insulation 85
 - 4.3.4 Resulting sound insulation with consideration of joints 88
 - 4.3.5 Characteristics to be considered for installation 91

- 4.4 Fire protection 93
 - 4.4.1 Preliminary remarks 93
 - 4.4.2 Fire behaviour 94
 - 4.4.3 Fire propagation 95
 - 4.4.4 Fire resistance 95
 - 4.4.5 Fire flashover 95
 - 4.4.6 Smoke protection 96
- 4.5 Summary 96

- 5 Anchoring and load transfer 99**
 - 5.1 Acting forces, dead weight, 99
 - 5.2 Requirements for curtain walls 100
 - 5.3 Static systems 101
 - 5.3.1 Mullion and transom facade 101
 - 5.3.2 Unitised facades 103
 - 5.4 Anchor points (supports) for curtain walls 104
 - 5.4.1 Anchor points for mullion-transom facades 104
 - 5.4.2 Anchor points for unitised facades 105
 - 5.5 Anchoring and connecting means 106
 - 5.5.1 Consoles 107
 - 5.5.2 Dowel anchorages 109
 - 5.5.3 Insert assembly 110
 - 5.5.4 Anchor channels 110
 - 5.5.5 Weld-on plates 111
 - 5.6 Special requirements for anchoring means 111
 - 5.6.1 Fire protection anchorages 111
 - 5.6.2 Anchoring of burglar-resistant curtain walls 112
 - 5.6.3 Anchoring of curtain walls with fall protection properties 112

- 6 Sealing 113**
 - 6.1 Structural requirements 113
 - 6.2 Sealing planes 114
 - 6.3 Types of joints 117
 - 6.3.1 Special case: structural joints 118
 - 6.3.2 Component connection joints 119
 - 6.4 Sealing systems 120
 - 6.4.1 Sealing foils 121
 - 6.4.2 Sprayable joint sealants 126
 - 6.4.3 Impregnated joint sealing tapes of foam plastic 129
 - 6.4.4 Sprayable or spreadable film materials 130
 - 6.5 Water vapour diffusion behaviour of sealing systems 130
 - 6.6 Insulation in the connection area 131
 - 6.7 Sealing recommendations 132

- 7 Practical design 133**
 - 7.1 Installation planning of curtain walls 133
 - 7.2 Workflow and processing of the trades 136
 - 7.3 Protection of components on the construction site 138
 - 7.4 Tolerances of the structure 139
 - 7.5 Dilatation of curtain walls 141
 - 7.5.1 Dimensional changes due to temperature 141
 - 7.5.2 Dimensional changes due to humidity 143
 - 7.6 Preparatory measures, target/actual comparison) 145
 - 7.7 Electrical connections in curtain walls 145
 - 7.8 Curtain walling in the area of structural joints 146
 - 7.9 Sealing of floor deep elements 146
 - 7.10 Documentation 153
 - 7.10.1 Company declaration 153
 - 7.10.2 Specialist company declaration 153
 - 7.10.3 Assembly documentation for the customer 153

- 8 design examples 155**
 - 8.1 Wood-metal curtain wall 156
 - 8.2 Metal curtain wall 159

- 9 Literature list / List of figures 163**
